Description

Autel IA900WA Full Kit Plus with Rim Clamps - ADAS Calibration & Tire Alignment
The Autel IA900WA Full Kit Plus with Rim Clamps is a complete solution that combines tire alignment and ADAS calibration in one system. With its advanced 3D camera functionality, this unit can perform highly accurate calibrations for Advanced Driver Assistance Systems (ADAS) within 1 minute. Fast and accurate calibration
Step-by-step visual instructions make the calibration and alignment process simple and efficient. By precisely aligning the unit to the vehicle's rear axle, maximum calibration accuracy is achieved even with complex ADAS systems. Combined tire alignment and ADAS calibration
The IA900WA allows both full four-tire alignment and ADAS calibration to be performed in one operation. This saves time and increases workshop productivity. Compatibility and comprehensive software
Compatible with all European MS tablets, including MS906Pro, MS909 and MSULTRA. The Autel ADAS and alignment software offers the most comprehensive vehicle coverage on the market...
