

Car key Ford 315 MHz 5 buttons

Compact Ford car key with 5 buttons and a frequency of 315 MHz. Suitable as a replacement or additional key for compatible Ford models.

Description

Car key Ford 315 MHz - 5 buttons
Product Description This 5-button Ford car key operates at a frequency of 315 MHz and is suitable as a replacement or additional key for compatible Ford vehicles. The key housing is compact and designed for reliable operation of central locking and other key functions.

Compatibility Suitable for Ford models using a 315 MHz remote control with five buttons. Programming and possible transfer of electronics or transponder should be done professionally.
