## DESCRIPTION

Compact 12V multifunction emergency starter for motorcycles, cars, campers, marine engines, vans, etc. Functions as an air compressor for inflating tires of cars, motorcycles, and bicycles, as well as other items such as inflatables, balloons, etc. The LCD screen allows you to view various inflation modes with different types of units of measure (BAR, KPA, PSI). It is also a power bank for fast charging electronic devices via USB. Equipped with a high-intensity LED light, it becomes a source of illumination in case of need. It uses high-efficiency LiPo lithium batteries that allow for a complete and fast charge and ensure compactness and light weight.

Features:

- Compact 12V emergency jump starter;
- Air compressor with 5 inflation modes: for car tires, SUV, bike, inflatables, custom;
- Power bank with USB A output;
- Powerful light source with high-intensity LED light and 3 operating modes (steady, strobe, S.O.S).

Includes jump start cables, USB C charging cable, removable air tube, 3 nozzles for inflation, and a convenient storage case.
